Guide to Commissioning an Icon from Olivia Kijauskas

approximate sizes and relative pricing for egg tempera:

These sizes are approximate and will depend on the availability of boards from suppliers. The minimum prices are for the most simple designs with a painted background. The most simple design would be an icon of Christ or a saint from the shoulders, up, with a gold halo and painted background. For the smallest size, this is all that is possible. A more complex design would include more of the body, more than one person, a gold background, a painted border, or designing an icon that doesn't already exist (which can only be done in very specific circumstances). The most complex design, a festal icon, needs to be at least 8.5 x 11 inches. Olivia will be happy to talk about all of these details with you and come up with a customized plan for your icon.

- 4 x 6 inches - \$400 - \$600
- 5 x 7 inches - \$415 - \$660
- 6 x 8 inches - \$500 - \$725
- 8.5 x 11 inches - \$500 and above
- 11 x 14 inches - \$650 and above
- 12 x 16 inches - \$725 and above
- 18 x 24 inches - \$1,200 and above
- Festal icon - starting at \$1,000
- Boards may also be available in longer, rectangular shapes, squares, circles, or with rounded tops. In these cases, prices will be based on approximating the size and design with the options listed above.

acrylic:

Icons can also be written in acrylic paint when necessary. Acrylic does make larger icons more possible, and this is an opportunity Olivia is very happy to explore with you. For sizes 8.5 x 11 inches and smaller, Olivia only works in egg tempera.
